<p>REMARKS:</p> <p>This certificate has been issued on a voluntary basis. Assessment of the product(s) and the production process is not covered by this certificate. It is duty and full responsibility of the manufacturer to carry out all necessary safety assessment of the product(s) according to all related EC Directive(s), relevant and valid standard(s) before putting into market/service, affix CE mark and issue EU Declaration of Conformity. The CE symbol shown on this document does not indicate or imply the CE Marking of the product or assessment on the safety and compliance of the product. The manufacturer shall affix CE mark on the product(s) according to 2014/35/EU Article 16 & Article 17, only if the product(s) fulfill the relevant principal elements of the safety objectives for electrical equipment designed for use within certain voltage limits and the drawn-up EU Declaration of Conformity. Technical File should be drawn up according to Annex III for each type/model of related product(s) by the manufacturer and/or his authorized representative in order to assure conformity with the principal elements of the safety objectives for electrical equipment designed for use within certain voltage limits which demonstrate that the product complies with the requirements of related directives/standards and must be compiled in one or more official Community languages. Before placing equipment into market/service, the manufacturer or his authorized representative shall ensure that the Technical File in accordance with related directives/standards is available.</p> <p>The manufacturer or his authorized representative shall draw up a written EU declaration of conformity for a product model and keep it together with the technical documentation at the disposal of the national market surveillance authorities for 10 years after the electrical equipment has been placed on the market. It is the manufacture's responsibility to appoint a European Representative before placing the products on the European Market. For imported products, the importer must take the responsibility for the DoC. NOTICE declares that the only scope of the certificate is to verify the existence of the declaration issued by the manufacturer or the applicant under its own responsibilities.</p> <p>This certificate consists of 1 (one) page.</p>
